Over 1.5 Lakh Km GPR Surveyed Since 2003

MEZUX
GPR SURVEY

Mezux Touch Private Limited
GPR Survey for Safety First

"One of the pioneers in the GPR survey industry in India since 2003, we are proud to hold triple ISO certification for our commitment to excellence: ISO 9001:2015, ISO 14001:2015 and ISO 45001:2018 for Quality, Environment and Health & Safety."

Utility Locating Services
With over 23 years of experience and 58 company-owned GPR systems, we provide underground utility detection and mapping for telecom, power, gas and rail projects across India.

Your Trusted Partner for Subsurface Imaging Solutions

Welcome to Mezux Touch, your premier destination for cutting-edge subsurface imaging solutions. Working below ground across India since 2003, we specialise in ground-penetrating radar (GPR) survey, utility mapping, concrete scanning, HDD drilling, OFC works and Right-of-Way liaisoning – delivered by our own crews on 58 company-owned GPR systems and 18 HDD rigs. Our noteworthy achievements include more than 1.5 lakh km of GPR survey across 28+ States/UTs and long-stalled corridors such as NDMC (225 km), Bawana (135 km) and Okhla (67 km) delivered for Bharti Airtel below approved CAPEX. We are a trusted infrastructure partner for BSNL, Reliance Jio, Bharti Airtel, Vodafone Idea, Tata Communications, TCIL, RailTel and MTNL, and our radar teams serve gas, power, water, metro, rail and highway projects. Triple-ISO certified processes, 100% in-house teams and no sub-letting are a testament to our commitment to delivering projects precisely as per our clients' standards and within the stipulated timelines.

About Mezux Touch

Founded in 2003 and based at Sector-41, Faridabad, Mezux Touch has established a strong reputation as a leading provider of GPR survey and trenchless underground works in India. Our mission is to provide exceptional GPR scanning services that meet the highest standards of quality and precision. We understand the importance of accurate subsurface imaging in ensuring the safety, efficiency and success of your projects. That's why we employ advanced GPR technology and strict scan protocols to deliver reliable and actionable data.

Subsurface Investigation

Subsurface investigation is the meticulous process of locating and mapping what already lies beneath the surface – cables, pipelines, ducts, voids and reinforcement – before a single trial trench is opened.

For top-notch subsurface investigation services, look no further than Mezux Touch. Our in-house engineers and 58 company-owned GPR systems make us the prime choice for your project needs. We utilise advanced, non-disruptive techniques like ground-penetrating radar and electromagnetic locating to deliver precise and dependable data. Committed to safety, efficiency and unwavering customer satisfaction, Mezux Touch stands as the ultimate partner for all your subsurface investigation requirements.

India's Premier GPR Scanning Team

At Mezux Touch, we provide professional and reliable Ground Penetrating Radar (GPR) scanning services throughout India. With 58 company-owned radar systems and a highly skilled team, we offer comprehensive subsurface imaging solutions for your construction, renovation or excavation projects.

GPR Survey Services

Utility Detection: Identify underground utilities such as OFC lines, telecom ducts, HT/LT cables, water pipes, gas lines and sewer systems to ensure project safety and avoid costly damages.

Concrete Scanning: Safeguard your concrete projects by mapping hidden elements like rebar, post-tension cables or conduits, preventing costly drilling or cutting mishaps.

- Underground Utility Detection & Mapping Service
- OFC Route & Telecom Networks GPR Survey Service
- HT / LT Cable Route & Railway GPR Survey Service
- Pipeline Tracing, Void Detection & L-Section Survey
- SUE Survey & Pre-Excavation Clearance

Our Services Include

Ground Penetrating Radar

Liaisoning & Right-of-Way

Advanced Equipment- Mezux Touch Invests in Excellence

At Mezux Touch, we understand that the quality of our work begins with the quality of our equipment. We own 58 GPR systems and 18 HDD rigs outright – none hired in – all maintained in-house.

Our investment in multiple antenna classes allows us to offer unparalleled precision: high frequency for rebar in slabs, low frequency for deep mains. Every system is calibrated to our own procedure and meets the highest industry standards.

GPR Equipment

Ground Penetrating Radar | Concrete Scanning
Ground Penetrating Radar | Utility Scanning
Electromagnetic Locators | Vacuum Excavation

Client-Centric Approach

Your satisfaction is our ultimate goal. We prioritize open communication, quick responses and personalized service. Our team answers every enquiry within one working day and works 24/7 to deliver solutions that exceed your expectations.

Diverse Clientele

Mezux Touch is a trusted partner of:

airtel	TATA	VI
Jio	BSNL	
रेलटेल RAILTEL	BSES	GAIL
igl	and 668+ More Esteemed Organizations...	

Quality Assurance- Mezux Touch's Commitment to Excellence

Quality assurance is at the core of Mezux Touch's values. Certified to ISO 9001:2015, ISO 14001:2015 and ISO 45001:2018, we spare no effort in upholding the highest standards.
